

AUSTRALIAN LEARNING AND TEACHING FELLOWSHIP

JOURNALISM CAPSTONE UNITS

Capstone units for journalism programmes to facilitate the demonstration of graduate capabilities

Associate Professor Trevor Cullen, Edith Cowan University www.journalismcapstoneunits.org

This 18-month Department of Education and Training Fellowship, spanning from July 2015 through to January 2017, set out to provide, for the first time, a series of agreed principles, models and skills to guide journalism educators in the design and implementation of final-year journalism capstone units which

effectively demonstrate and measure required graduate capabilities.

On 17 December 2016, the Fellowship's research outcomes and recommendations, the agreed principles, models and skills, were accepted by the Executive of the Journalism Education and Research

Association of Australia (JERAA) for use in journalism programmes in Australian universities. The Fellowship's findings have been circulated to all Australian universities that offer journalism programmes, and their respective capstone units are being (re)designed and implemented from 2017 onward.
